## **Abstract**

Insert abstract text here.

## **APA Format Starter Paper, Tailored to Lab Reports But Adaptable to Other Writing Assignments**

Introductory text goes here. A wild example parenthetical reference appears (Contributor, 2023), followed by an in-text sample citation by Book Author (2021).

Note that paragraphs are separated by a blank line in the editor. If you do not do this, it will continue as a single paragraph. This line is *technically* on a new line in the editor, but will print in the same paragraph.

### **Method**

#### **Participants**

Participant information goes here.

#### **Materials**

Words, along with a sample table (Table 1).

#### **Table 1**

*Sample words from this hypothetical experiment.*

First word	Second word
Yeet	Yoink
Hot	Lit

#### **Measures**

Some words about the measures used.

#### **Design**

Some more words

#### **Procedure**

Description of the procedure.

## Results

### Descriptive Statistics

Statistical words. A demonstrative Figure 1.

**Figure 1**

*The mean vibes for each word type and counterbalanced condition order. Error bars represent one standard error of the mean.*

### Inferential Statistics

Analytical words.

## Discussion

Discussion words.
